Program Description	Dr. Ram Sakhare, Associate Professor in the Department of QA, conducted a demo for students. The software enables users to: <ol style="list-style-type: none"> 1. Plan Experiments: Create optimal experiments using power analysis, blocks, and center points. 2. Interpret Data: Identify significant effects and select models confidently. 3. Present Results: Visualize findings through impactful graphs. 		
No. of Participants	36		
Outcome	After attending these participants will make significant improvements by providing an intuitive interface and powerful tools for designing experiments, analyzing data, and visualizing results. The software enables users to lay out an ideal experiment on their process, statistically model the results most precisely, and gain the confidence they need to present and publish their findings.

E-Learning: E-learning is an integral part of the institute’s teaching-learning process. Daily e-learning content is shared with them in various forms for student engagement and assessment. There are several ICT initiatives of the MHRD, UGC, and its Inter University Centres (ICUs) – Information and Library Network (INFLIBNET) and Consortium for Educational Communication (CEC), in the form of digital platforms which can be accessed by the teachers and students in the college for broadening their horizon of learning. Following is the list of some of the ICT initiatives along with their access links:

1. **ERP system:** The College is utilizing an ERP system developed by Vmedulife. It provides individual portals for students and teachers to access notifications, information, attendance, examination forms, and updating of internal and external marks of the students by the individual subject teachers.

2. **SWAYAM:** (<https://onlinecourses.swayam2.ac.in/>) SWAYAM has been developed cooperatively by MHRD (Ministry of Human Resource Development) and AICTE (All India Council for Technical Education) with the help of Microsoft and is equipped for facilitating 2,000 courses. It helps the students to access the courses taught by professors and faculty of centrally funded institutes like IITs, IIMs, IISERs, etc.

Journal Club: The Journal club method is adopted in the teaching learning process to students to discuss a scientific paper found in a research journal. Journal Club methodology improves the students' reading habits and gains practice in critiquing and appraising research. Also polish their presentation and communication skills, network and improve dialogue with other students and professionals.

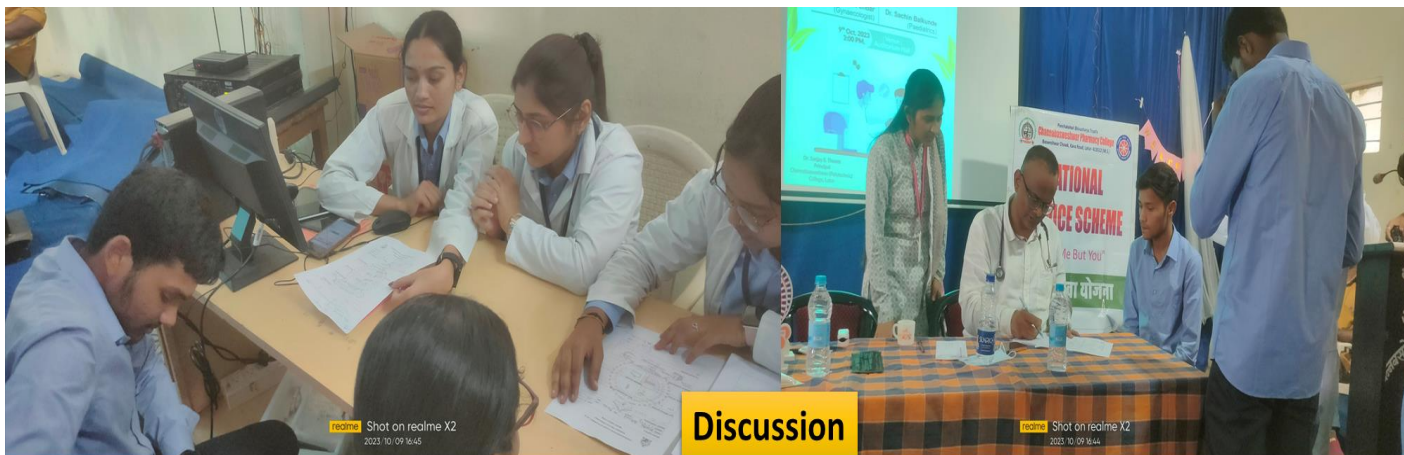

Seminars: M. Pharm students are present seminars in respective departments in semester first and second, B. Pharm. Final year students present seminars on practice school and project work topics and submit both of them in triplicate form. Also regularly conducted seminars of advanced learner students in tutorial class as per time table provided by academic incharge.
