Title of the Practice: “DIGITALIZATION FOR SUSTAINED ADVANCEMENT”

BEST PRACTICE- II :

“DIGITALIZATION FOR SUSTAINED ADVANCEMENT”

Initiative through e-Content Development

- ◆ ICT Usage
- ◆ ICT Hardware
- ◆ Cloud based vmedulife portal
- ◆ e-content material created by faculty

E-Resources utilization

- ◆ Library e-resources
- ◆ Educational softwares
- ◆ e-Administration
- ◆ Initiatives through Research Centre

Collaborative Methods of Teaching and Learning

- ◆ Creation of Google classroom
- ◆ CBPC connect You Tube channel
- ◆ Webinar/Training Programme Conducted by College
- ◆ NPTEL

Objectives of the Practice:

- To improve the quality of education through advanced teaching and learning techniques.
- To simplify the financial and administrative work by using various software systems.
- To inculcate students' pharmacy knowledge through various e-library sources.
- To increase reliability and transparency in the academic system.

The Context:

Channabasweshwar Pharmacy College (Degree), Latur situated in an urban area and most of the students are admitted from rural areas. The rural-urban digital divide was mainly perceived to be a hindering factor in learning. The National Education Policy 2020, has also shifted from traditional education to outcome-based education. ICT knowledge has become an essential factor. A regular updating of ICT knowledge is a unified element in the learning process and administrative setup. Many faculty members were interested in creating e-learning video modules and ICT tools, that needed training and infrastructural support. An upgrade was also required to automate the college administrative office to improve efficiency and perpetuate records.

The Practice:

Channabasweshwar Pharmacy College (Degree), Latur aims to provide an effective teaching, learning, and assessment system for students. ICT has the potential to bridge the knowledge gap by improving the quality of education, increasing the number of quality educational opportunities, and enabling knowledge to be acquired anywhere. To alleviate obstacles such as the COVID-19 situation, natural disasters like floods, earthquakes, etc., Vmedulife software has become a boon. This practice has helped us to reduce malpractice, increase transparency and significantly reduce the number of students missing exams. The use of YouTube, Google Classrooms, and Zoom app is a powerful tool for online learning. Advanced learning can be done through various e-library sources. ICT-based practice has made the learning more interesting, easy to understand, creating a less paper and overall helping us to improve the quality of education.

Evidence of Success:

- The efforts taken improved efficiency, reliability, transparency and accuracy in teaching, learning and examination systems.
- E-content developed by faculty members is available on the S.R.T.M. University, Nanded website. Link: <https://srtmun.ac.in/en/e-contents-video-lectures/300-faculty-of-science-and-technology/16249-subject-bpharmacy.html>

- The college has initiated a greener approach through e-administration and moving towards way to less paper office.
- Faculty members encouraged to update their pedagogical skills through participation in various webinars and training programs.
- The Research Center, equipped with the various research and educational softwares, sophisticated instruments and 24/7 work culture for successful completion of PG and Ph.D. research projects.
- The learning through YouTube, Google Classroom, and e-library sources made students confident and face the challenges ahead.

Problems Encountered and Resources Required:

- Some students live in remote places where they are unable to access internet, and sometimes technical errors are raised due to unexpected internet issues. Slow/interrupted internet connectivity was major hurdle in live sessions during the pandemic. The live sessions are recorded and hosted in LMS module of Vmedulife.
- The electricity cutoff is the major issue while conducting online sessions. This problem was solved by using power UPS.
- Special training is required for teaching and office staff to learn efficient software handling.
- Technical errors have been solved by the expert person from Vmedulife, Pune on both offline and online mode and also conduct the training.
- Provision is made for future academic years for financial assistance in this regard.

1. Initiatives through E-content Development

a. ICT Usage

The college provides interactive learning using projectors and interactive smart boards for students. This allows students to explore and learn through visual aids, videos and multimedia presentations, enhancing their learning experience. The College provides facilities for collaboration between students and between students and instructors. Using a wireless connection, students can collaborate on group projects and share information and ideas in real time. The college provides equal access to education for all students regardless of their physical abilities. The College provides assistance to students and instructors in conducting research. With a built-in web browser and access to academic databases, users can find relevant information and resources for their research projects. The college provides presentation facilities that allow students and instructors to showcase their work in a more engaging and interactive way. The large touch screen, users can create and deliver presentations that are both informative and visually appealing.

ICT Usage at College

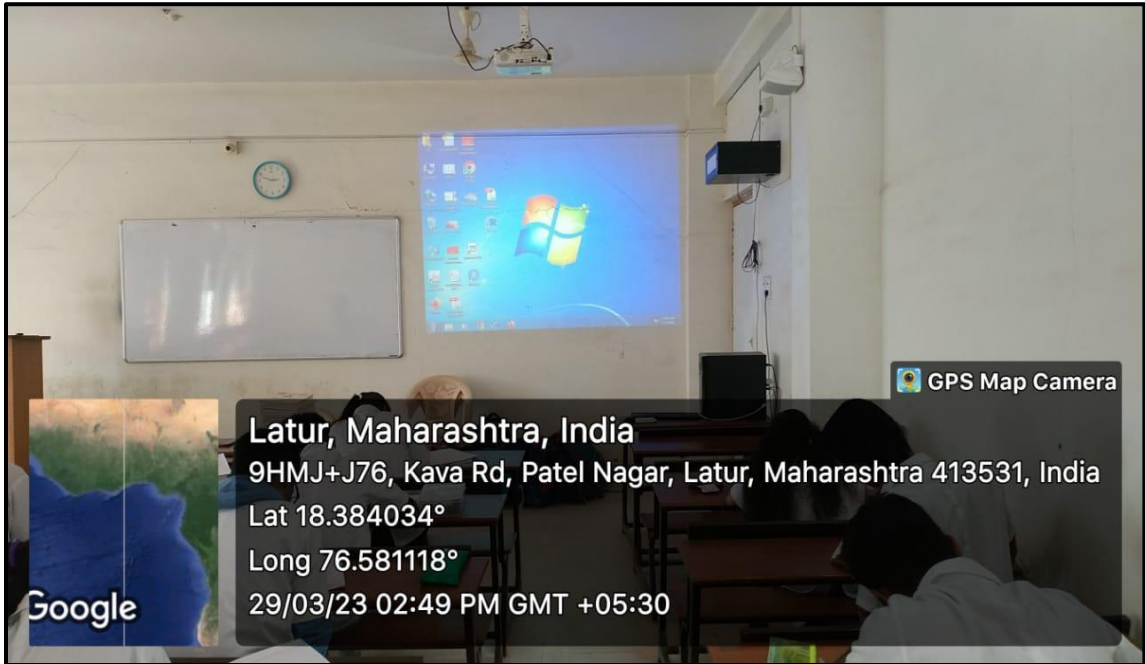

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

b. ICT Hardware

- Classrooms are equipped with projectors and interactive smart boards.
- Wi-Fi enabled classrooms with 100 mbps Internet connectivity.
- 134 computers for academic and 11 computers for administration purpose.
- Remote access is available for accessing all projectors and interactive smart boards.

c. Cloud based Vmedulife portal

- Vmedulife is effectively implemented with modules for faculty profile, academic planner, result analysis, online examination, student details, online feedback management system, learning management system, website integration and mentoring system.
- Academic planner is used for uploading syllabus and creating sessions of concerned course as well as student attendance. Students are having their individual login and password, enrolled for the courses and able to view their profile, study material, give feedback and complete the course.
- Examination portal is used to automate the procedure of examination and students are giving the examination through online mode. Faculty can set outcome-based question paper sets.
- Portal is available to upload the assignments and view student progress and attendance, examination result, and generation of attainment statements.
- Learning management system provides institute and global level study material such as PPT presentations, PDFs, and Video lectures.

d. E-content material created by faculty

- Around 150 Audio / Video lessons were prepared by our faculty covering the syllabi of B. Pharm, M. Pharm and Pharm D. courses.
- This e-content material is available in the college library as well as Swami Ramanand Teerth Marathwada University, Nanded website.
- During COVID-19 pandemic theory sessions of all subjects were conducted through Zoom / Google meet platform with the help of web integration module available in vmedulife software. It has created the inventory of recorded lectures which has overcome the network connectivity issues for the students from rural localities.

E-content material is available on Swami Ramanand Teerth Marathwada University, Nanded website

The screenshot shows the university's website with a navigation menu and a search bar. The main content area displays the university's name and logo. Below this, there is a breadcrumb trail: Home > E-Contents (Video Lectures) > Faculty of Science and Technology > Subject - B. Pharmacy by Channabasweshwar Pharmacy College, Latur.

The subject page is titled "Subject - B. Pharmacy by Channabasweshwar Pharmacy College, Latur." and lists two sets of e-content material:

Developed By: Ms. Varsha M. Gaiwad. Assistant Professor, Department of Pharmaceutics, Channabasweshwar Pharmacy College, Dist. Latur.

2. E-resources utilization

E-resources have become important part of the educational system. Academics have indicated satisfaction with their use of electronic resources and have committed their interest to the continuous use of e-resources because their use leads to better research and augments scholarly communication. The main purpose of utilizations to access the level of use of electronic resources, the academic productivity of faculty members and students as well as e-administration while using electronic resources.

a. Library e-resources

Library manager software is used for maintaining day to day record of issue and return of books. Every book and journal available in the college library is having specific barcode. These softwares maintain monthly records of faculties and students. Delnet membership subscription is available at college library. 398 e-journals can be accessed through delnet. Book borrowing facility from any corner of country can be availed through Delnet. National digital library, Vidyamitra, Shodhganga, e-Acharya can be used to access journal, books and literature. In the college library 117 books CD are available; these can be used as e-content or e-book.

Language lab software is installed to improve communication skill and English language of students. Non-Visual Desktop Access (NVDA) software's are used to convert text to audio format for the ease of teaching learning for especially abled students. NVDA is free fully featured screen reader software that enables blind or vision impaired people to read and access computers. College has disable friendly website which provide accessibility tools containing various options for disable friendly handling.

Delnet Software

College has subscribed for paid service of delnet, which is one of the leading e-resource libraries in south Asia. It has majorly promoted sharing of resources amongst network of library. It contains the access to various scientific journals indexed in reputed databases like Elsevier, Springer, Nature, Bentham, etc which helps the student to focus on their research as these articles are not available to scholars due to high charges, we provide them this facility so they can prepare and implement the latest information in their research.

National Digital library:

The National Digital library of India is a virtual repository containing various resources like books, videos, lectures, simulations, articles etc. It is developed by Ministry of Education, Government of India, through its National Mission on Education through Information and Communication Technology (NMEICT). It provides free access to data in ten Indian languages. The objective is to collect and assemble data and make available full text index from several national and international digital libraries, as well as other relevant sources.

Online Portal Screenshot of National Digital library

The screenshot displays the homepage of the National Digital Library of India. At the top, there is a navigation bar with options like 'Browse', 'Search', 'NEW Evaluation of NMEICT Projects', 'NDLI Club', 'Other Services', 'Language', and 'Channabasweshwar Pharmacy College (Degree)'. The main header features the logos of the Ministry of Education, Government of India, and the Indian Institute of Technology Kharagpur, along with the text 'National Digital Library of India' and 'One Library All of India'. A search bar is prominently displayed, showing 'Q Search over 98,172,653 resources'. Below the header, the page is organized into several sections: 'TEST PREPARATION' with buttons for CBSE Examination Preparatory, IIT-JEE and NEET, Joint Admission test for Masters (JAM), Graduate Aptitude Test in Engineering (GATE), National Eligibility Test (UGC NET), and Career Development and Recruitment; 'STUDY AT HOME' with buttons for School, Engineering, Science, Humanities, Literature, and Law & Management; 'COVID-19 RESEARCH REPOSITORY' with buttons for Scholarly Publications, Data Sets, Documents & Videos, Journals & Conferences, Ideas & Funding, and Challenges & Startup; and 'FEATURED COLLECTIONS' with buttons for Birth Centenary of Satyajit Ray, On this Day, Person of the Week (Nikola Tesla), Topic of the Week (Seven Wonders of the World), and Talks & Webinars.

Disable Friendly Software:

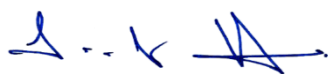

In college library on desktop NVDA application and disabled friendly website provided for the ease of reading and listening e-book pdf, referencing internet etc. These softwares convert readable material into audio for especially abled students.

NVDA software:

Non-visual desktop access is a free "screen reader" which facilitates blind and vision impaired person to use computers. It reads the text on the screen in a form of computerized voice. You can control what is read to you by moving the cursor to the appropriate area of text with a mouse or the arrows on your keyboard. NVDA can also convert the text into braille if the computer user owns a device called a "braille display". For the blind and Vision Impaired candidates NVDA software is installed in the computers of college library and computer lab.

b. Educational softwares

Educational software is a term used for any computer software which is made for an educational purpose. It encompasses different ranges from language learning software to classroom management software to reference software. The purpose of all this software is to make some part of education more effective and efficient.

Ex-Pharm Series Software:

Ex-Pharm series software is a computer assisted learning (CAL) software containing various programs which simulate animal experiments in Pharmacology. These programs can be used to demonstrate effect of drugs on different animal systems. The package is user friendly, highly interactive and full of animated sequences which make simulation appear realistic.

X-Cology Experimental Pharmacology Software

The use of computer simulations as a substitute for animal experiments to replicate live dissections is a new trend that has the advantages of being more repeatable and requiring less time and labour. The most significant benefit of computer assisted learning is that it stops the cruel death of animals. Pharmacokinetic software enables in vitro-in vivo correlations, eliminating the need for animal testing. These software's ease of use and reduced need for manual involvement make their use very advantageous.

PROPOSAL

Ref:JGATE-P-101W-2017-18-0272

March 23, 2018

Channabasweshwar Pharmacy College
Kava Road, Basweshwar Chowk,
Latur-413512
Maharashtra
Kind Attn: Mr. R S Pentewar-Professor

Dear Sir,

Greetings from Informatics!

Please find below our proposal for **J-Gate Pharmacy**. Pricing details are as below:

#	Product Description	Amount (Rs)
1	J-Gate Pharmacy	30,000
	Add: GST @ 18%	5,400
	Total	35,400

Rupees Thirty Five Thousand Four Hundred Only

Please release your valued order for further processing, based on this proposal.

As you are aware, Government of India has implemented Goods and Services Tax (GST) with effect from 1st July 2017. We will be providing you the GST-compliant invoice once we get confirmation from your end for releasing the payment.

In the meantime please provide your institute GST registration number by return mail immediately. Without which, you will not be able to claim input credit in your books.

In case you need any additional information please feel free to write us or e-mail cswest@informaticsglobal.com.

Thank you and assuring you of our best services

Sincerely,

For Informatics Publishing Limited

c. e-Administration

Tally Prime Software

Tally prime is one of the most popular accounting software used in India. It is complete enterprise software for small & medium enterprises. Our college is using this software for e-administration of all accounting purposes. Tally is used for accuracy and transparency in financial affairs. ERP software is used for ease of administrative work. This software helps office staff to maintain correct information regarding every transaction. The office continues to maintain its account on Tally. Latest versions of the software to be purchased and used by the college. Advanced features help the staff to maintain financial records effectively and efficiently.

Instruments in Ph.D. Research Centre:

UV Spectrophotometer

Ultraviolet/Visible area (UV-Vis) measurements span wavelengths from around 200 nm to 800 nm. The absorption by a molecule of ultraviolet or visible radiation results in transitions between the molecule's electrical energy levels. The optical and electronic properties of different materials, such as films, powders, monolithic solids, and liquids, are suitable for characterization.

College (Degree), Latur

IR Spectrophotometer

An infrared spectrophotometer is an analytical instrument used to identify materials including organic polymers. Infrared spectrophotometers record the relative amount of energy as a function of the wavelength/frequency of the infrared radiation when it passes through a sample.

IR Spectrophotometer Software Screenshot

Organized /Sponsored by	Channabasweshwar Pharmacy College Degree, Latur.		
Coordinator/Incharge	Dr. R. S. Sakhare		
Program Description	On 13 th June 2023, Channabasweshwar Pharmacy College (Degree), Latur. Organized Online Seminar on the topic, Basics in Research Methodology. The Eminent speaker was Dr. Ashok Gingine. Assistant Professor, School of educational Sciences, S. R. T. M. U. Nanded. Resource person gave guidance on basic concepts involved in research methodology, types of research etc. On the occasion, Program Coordinator Dr. R. S. Sakhare, along with the college teaching faculty & students were present.		
No. of Students participated	52		
Outcome	Student able to understand basic concept in research process

PROGRAMME ACTIVITY REPORT
Academic Year 2022-23

Date, Time and Day	Date: 27/04/ 2023	Time: 2.30pm	Day: Thursday
Introductory Details of Function/Program/Event/Session			
Name of the Activity Domain	ICT/ Software Awareness		
Name of the activity	Seminar on "Molecular Docking for Beginners"		
Organized /Sponsored by	Department of Pharmaceutical Chemistry		
Coordinator/Incharge	Mr. Moein S Attar		
Objective	To provide participants with a comprehensive understanding of molecular docking techniques and their applications in modern drug discovery.		
Program Description	<p>The seminar was held on 27/04/2023. The keynote speaker was Dr. Anant N. Deshpande, who is a renowned expert in the field of molecular docking. The seminar was attended by our research students. The speaker discussed the principles and recent applications of molecular docking in modern drug discovery. The talk covered the sampling algorithms, scoring functions, and diverse available software for molecular docking.</p> <p>The speaker also demonstrated the interplay of docking, classical techniques of structure-based design, and X-ray crystallography in the process of drug discovery. The talk concluded with several success stories of molecular docking approaches in drug discovery, concluding with remarks on molecular docking for the future.</p>		
No. of Participants	35		
Outcome	Participants gained a deeper insight into the principles and mechanics of molecular docking. Understood how protein-ligand interactions are modeled and how docking algorithms explore potential binding conformations.

Academic Year 2022-23

Date, Time and Day	Date:24/02/2023	Time :2.30 pm	Day: Friday
Introductory Details of Function/Program/Event/Session			
Name of the Activity Domain	ICT/ Software Awareness		
Name of the activity	"Excel: A Comprehensive Guide"		
Organized /Sponsored by	IT Cell		
Coordinator/Incharge	Mr. Sidheshwar Swami		
Objective	Introduce students to Microsoft Excel, covering basic to advanced features for data manipulation and analysis.		
Program Description	Recently, students had the opportunity to delve into the world of Microsoft Excel. The presentation, led by Mr. Akshay Khandapure, covered a spectrum of topics from basic spreadsheet creation to advanced features. Participants learned how to format cells, use formulas, and explore pivot tables for data analysis. The expert showcased practical applications, emphasizing real-world problem-solving. They found the presentation both informative and engaging. Excel plays a crucial role in various fields. Overall, the event was a resounding success, leaving attendees with a deeper understanding of this powerful software.		
No. of Participants	35		
Outcome	Participants gain practical skills in formatting, formula usage, and pivot tables, enhancing their problem-solving abilities.

d. NPTEL

National Programme on Technology Enhanced Learning (NPTEL) is a quality Indian e-learning platform for university-level science, technology, engineering, and mathematics (STEM) subjects. It is jointly developed by Indian Institutes of Technology and Indian Institute of Science. The initiative is funded by the Ministry of Education (MoE), Government of India. The project's central idea is to put recorded lectures taught by its member institutes online for open access covering engineering, basic sciences, and some humanities and social science subjects.
