7.1.2.1 Alternate sources of energy & energy conservation measures

a. Energy Management Measures:

Alternative energy sources are any source we use to supplement or even replace traditional energy sources used for power generation. Light-emitting diode (LED) is one of today's most energy-efficient and rapidly developing lighting technologies. Over the past few years our college has taken a conscious decision of using energy-saving sources and Energy management by offering Energy audit services.

Improvement in Energy Conservation:

- Replacement of CFL with Light Emitting Diode Panel light/ (LED) tubes /bulbs,
- Replacement of conventional ceiling fans by BLDC ceiling Fans.
- Use of star rated Equipment's such as Air conditioners and refrigerators.
- Windows defaults for **Screen** and sleep have been updated to reduce **energy** use when your device is idle.
- Sensor based energy conservation.
- Solar energy is being harnessed using solar panels.

Minimization of Energy wastage:

- Maximum use of natural day light for indoor illumination.
- Use of natural ventilation.
- Fine tuning of temperature setting of Air conditioners and Water coolers.
- Conducting awareness program for staff and students.
- E-pledge to reduce energy use in campus
- Teachers, students, and office assistants are strictly directed to see that all lights, fans, motors are switched off after the college hours.

Energy Substitution:

Maximum Use of Renewable Energy: Grid inter active Solar Panel systems at Roof tops

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

b.: Facilities for energy conservation:

i. Use of Light Emitting Diode (LED)/ Power Efficient Equipment's

Dominant light source at most places in the campus were traditional CFLs, in last five years those are replaced by LED light panel/LED tube light/ LED bulbs as they have been proved comparatively more energy efficient. Presently there are power efficient alternative sources in the campus.

Air conditioning: Conventional A/C's are being replaced gradually to star rated A/C units. STAR rated products - use at least 75% less energy, and last 25 times longer, than incandescent lighting.

ii. Sensor based energy conservation:

The motion sensors help the college reduce its energy requirements in off-peak times. Provide convenience by turning lights on automatically when someone enters a room, and save energy by turning lights off inside the room when a space is unoccupied. College has installed the motion sensor lights in administrative block and some classrooms.

iii. Solar Panel System:

Panchakshari Shivacharya Trust, Aloor has initiated the power utilization through renewable energy sources like Solar Power Panels to Channabasweshwar Pharmacy College (Degree), Latur, running under the trust. Our institution has 1 set (19 kWp) of 57 solar panels installed on the roof-top of building. The order includes design, supply and installation and testing 19kWp. Grid connected with terrace, solar energy system. This solar power plant is having capacity of generating around 25550 units per year.

iv. Wheeling to the grid:

Solar system connected is wheeled and the electric power generated units consumed and excess units are given to MSEB. As a result, Panchakshari Shivacharya Trust, Aloor has made our college to be self-reliant in terms of electricity consumption.

Principal
 Channabasweshwar Pharmacy
 College (Degree), Latur

v. Other:

Boards have been placed for:

- Switch of fans and lights when not in use
- Save Energy
- E-pledge to use energy more efficiently.

The air ventilation is of excellent quality for almost all of the classrooms and other premises.

(Certified by BEE, Ministry of Power Government of India & Empanelled MEDA, Gov. of Maharashtra")

"Channabasweshwar Pharmacy College (Degree), Latur"

are herein after individually referred to as "**Party**" and collectively as "**Parties**"

AND WHEREAS,

"Kedar Khamitkar & Associates" Latur"

(Certified by BEE, Ministry of Power Government of India & Empanelled MEDA, Gov. of Maharashtra")

Will provide technical assistance and advice, as mutually agreeable and appropriate, regarding the College's options to obtain: (1) an energy audit to diagnose savings potential; (2) project finance in some combination of conduit (indirect) debt obligations, competitive grants, and utility rebates; and (3) general construction management for implementing energy efficiency measures, (4) To organize workshop, seminar & training programs for students, teaching & non-teaching staff. In order to reduce the College's risk and efforts in obtaining energy efficiency measures, the Parties agree to the following provisions and process

AND WHEREAS,

The term of this MOU will remain valid from the month of 02 January 2023 till 01 January 2028. The MOU will stay in effect until terminated by mutual agreement or by either party giving the other party six (6) months prior written notice in any of the following eventualities:

a) "**Kedar Khamitkar & Associates**" Latur determines there is no longer congruence of purpose, vision and mission between

"Kedar Khamitkar & Associates" Latur & "Channabasweshwar Pharmacy College (Degree), Latur"; or

b) "**Channabasweshwar Pharmacy College, Latur**" determines there is no longer congruence of purpose, vision and mission between "Channabasweshwar Pharmacy College (Degree), Latur" & "Kedar Khamitkar & Associates" Latur

or

c) Either party where one party believes the other party has not complied with the MOU and negotiation fails to rectify the matter within a reasonable time.

AND WHEREAS in establishing this Memorandum of Understanding (MOU) the parties confirm that they are of similar spirit, have common goals and expect there will be mutual benefit from their separate yet supporting activities.

AND WHEREAS each party recognizes that this MOU may create in one party an expectation that results in an obligation for the other party but notes that the intent of each clause or section is to set out the starting point for future relationship building and the determination of clarity and congruence of purpose.

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

NOW, THEREFORE, NOTWITHSTANDING AND IN SUPERSESSION OF ALL THE PREVIOUS AGREEMENTS, ARRANGEMENTS, UNDERSTANDINGS, ASSURANCES, REPRESENTATIONS, ETC. MADE BY THE PARTIES TO EACH OTHER, THIS MEMORANDUM OF UNDERSTANDING RECORDS THE TERMS AND CONDITIONS WHICH HAVE BEEN AGREED TO BY BOTH THE PARTIES AS UNDER: -

FIELD OF COOPERATION

Both the institutions shall evolve a mutually acceptable schedule to conduct / organize the meets to have the benefits of the stake holders.

ROLES AND RESPONSIBILITIES OF PARTNERS

"Kedar Khamitkar & Associates" Latur as a Partner plays a key role in the entire process of the activity throughout the year. Their primary responsibilities are as follows:

1. Conduction of Energy Management & its Awareness

Conduct the workshops for students, teaching & non-teaching staff as hands on experience in the specialized field of energy management of the institution along with the experts in that domain.

Should identify minimum 2 to 3 groups of students based on the mock test conducted and review the feasibility to provide industrial level training on site for about two or more weeks-based nature of work.

2. Allocation of the projects to the students

One to two industrial application-oriented projects shall be made available to the students.

Depending on the personal level interview technical support shall be given for the development of projects. The appropriate guidance shall be provided for this. The selection of the project should enable the students to participate in various project-based competitions to prove their knowledge.

3. Experts talk & Lectures series.

In view of development of students conceptual understanding & practical approach to see the real-world application, the guidance in the form of motivational talk shall be provided from the institute. Guidance of appearing in the group discussion to express the thought, skills effectively.

4. Participation in curriculum enrichment

There shall be involvement by the experts to give the valuable feedback on designing the experimentation techniques to emphasize more practical knowledge to the students.

5. Active participation in the college activities like Conducting Energy Audit & Providing necessary solutions to save Energy.

Conduction of Energy Audit, Regular visit at the Institution for providing savage of energy. Regular inspection of electrical laboratory equipment's, electrical generators to provide best environmental solutions.

FINANCIAL IMPLICATIONS:

It will be mutually decided by both the parties on time to time.

ROLES AND RESPONSIBILITIES OF

Channabasweshwar Pharmacy College , Latur

1. Counseling session to the Students/ Faculty.

The institute will review the feasibility to provide training to the Students/Faculty.

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

2. Technical training

MUCU will assist in conducting training sessions in industry, Students & faculties will be spared for the training at the institute premises.

Conduct the training as hands on experience in the specialized field of the institution along with the experts in that domain.

3. Experts talk & Lectures series

In view of development of students, teaching & non-teaching staff of the institute conceptual understanding & practical approach to see the real-world application, the guidance in the form of motivational talk shall be provided form the institute.

Guidance of appearing in the group discussion to express the thought, skills effectively.

4. Participation in curriculum enrichment

There shall be involvement by the experts to give the valuable feedback on designing the experimentation techniques to emphasize more practical knowledge to the students.

5. Active participation in the college activities like performing energy audit & its management

The institution will regularly perform energy audits with the authorized auditors of Kedar Khamitkar & Associate. The necessary solutions for saving energy will be followed.

All rewards/ awards functions arranged by Government or Private bodies, achieved due to Joint Activity of Both Parties, will be attended by equal representation of Both the Parties.

The mutual understandings, between the First and Second Party, above terms are agreed by the both parties:

7.1.2.2 Management of the various types of degradable and non-degradable waste:

a. Waste Management Measures:

Channabasweshwar Pharmacy College (Degree), Latur realizes sustainable waste management essential in reducing its environmental footprint and providing a safe and healthy work environment. The college ensures that all the campus wastes are disposed of responsibly by using proper waste segregation mechanism at the source. The MoU are done with various agencies for waste management.

Improvement in waste management:

- To comply measures to promote best practices with respect to waste management.
- To ensure that waste management is performed in accordance with all requirements,
- To promote environmental awareness in order to increase and encourage waste minimization,
- To ensure the safe handling and storage of wastes on college campus.
- To promote holistic approach of waste management in the campus

Minimization of waste management:

It will be mandatory on the part of the Lab In charge/Head of the Department/Principal Investigator (Project)/ In-charge (Animal House) to report changes/additions in waste generation and steps taken to reduce generation of waste.

Principal
 Channabasweshwar Pharmacy
 College (Degree), Latur

b. Facilities for waste management:

i. Waste avoidance and waste minimization at source

Waste minimization have to be attempted by promoting implementation of recovery of resources such as solvents, as well as by-products.

ii. Safe disposal of hazardous waste

For the waste which cannot be recycled/ reused, safe and environmentally sound disposal will be adopted depending upon waste category. Disposal facilities should be followed as per the procedures given.

iii. Setting up of common treatment, storage and disposal facilities

The management of storage and disposal types of degradable and non-degradable, liquid, biomedical, E-waste and hazardous chemicals waste is carried out in the college.

➤ **Solid waste management:**

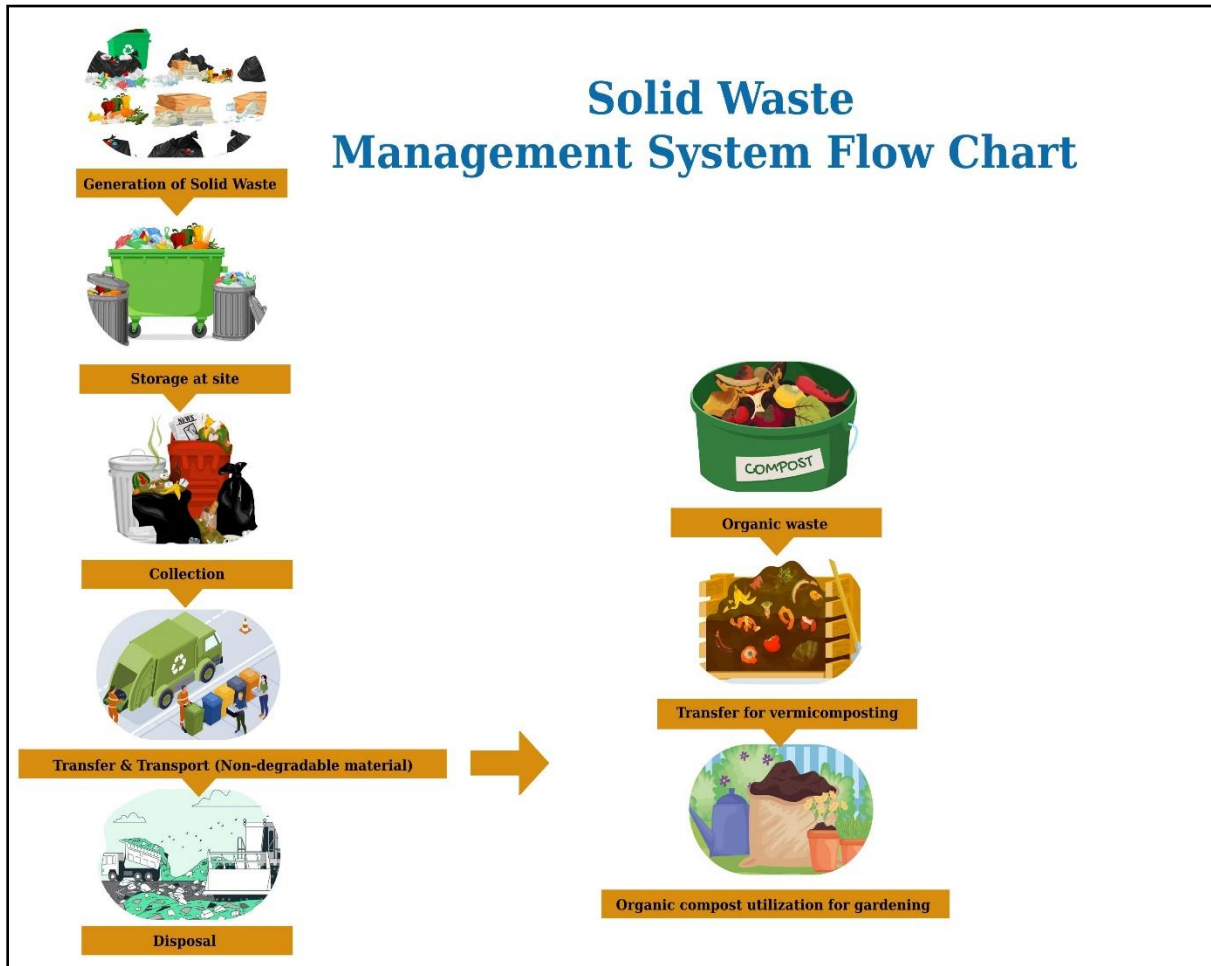

Solid waste is generated in the form of lab manuals, journals, packaging materials, labels. Such material is stored at one place and scrapped periodically for recycling. Non degradable waste (Dry and wet), empty bottles, cartons are collected regularly at one place and handed over to the municipal vehicle for collection and proper disposal.

Dustbins have been installed throughout campus for waste management. Vermi-compost produced is used for gardening in the campus. College adopts less paper concept by digitization of academic and office procedures. Use of paper printed on one side is encouraged as alternatives to waste management to reduce pollution.

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

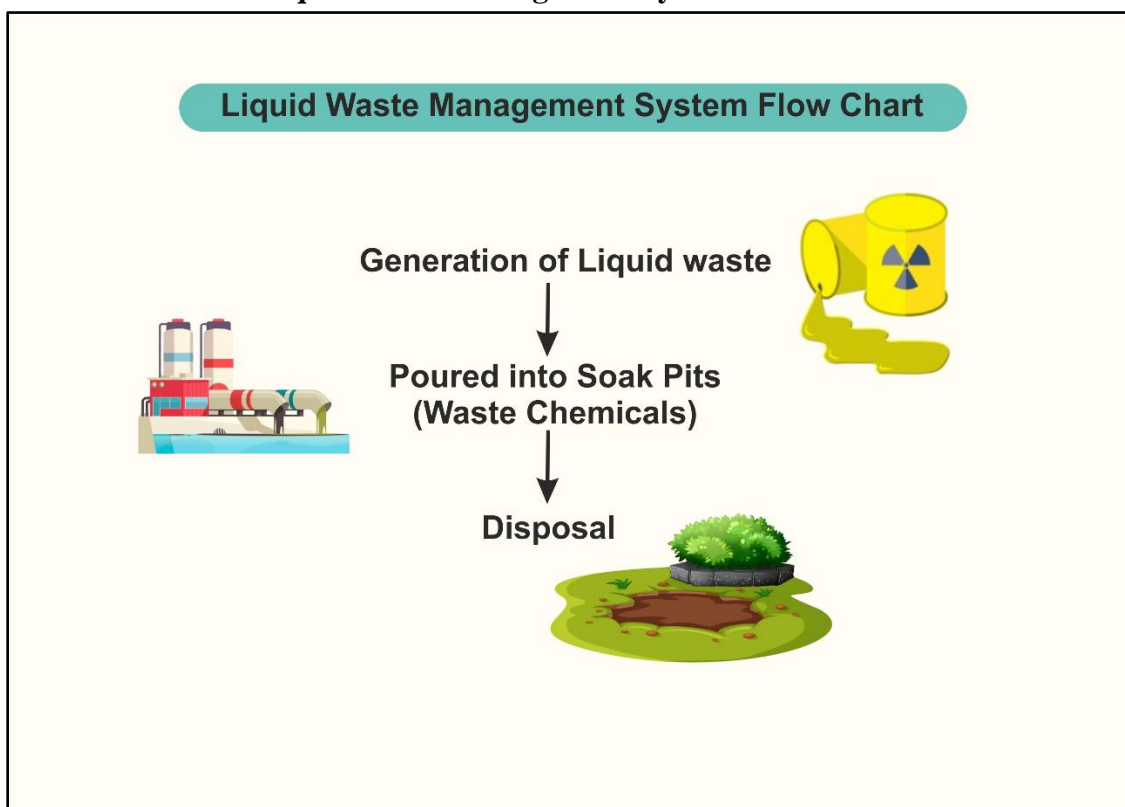

Solid Waste management System Flow Chart

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

- **Liquid Waste Management:** Liquid waste is generated in the form of solvents, solutions, reaction mixtures, preparations, etc. It is scientifically disposed as per the material safety data sheet norms. Liquid waste is allowed to enter into soak pits. This pit is also covered with layers of stones, sand charcoal and bricks, where water passes through it and it is further drained into another pit. The water is neutralized with NaOH and alum and treated water is used for gardening.

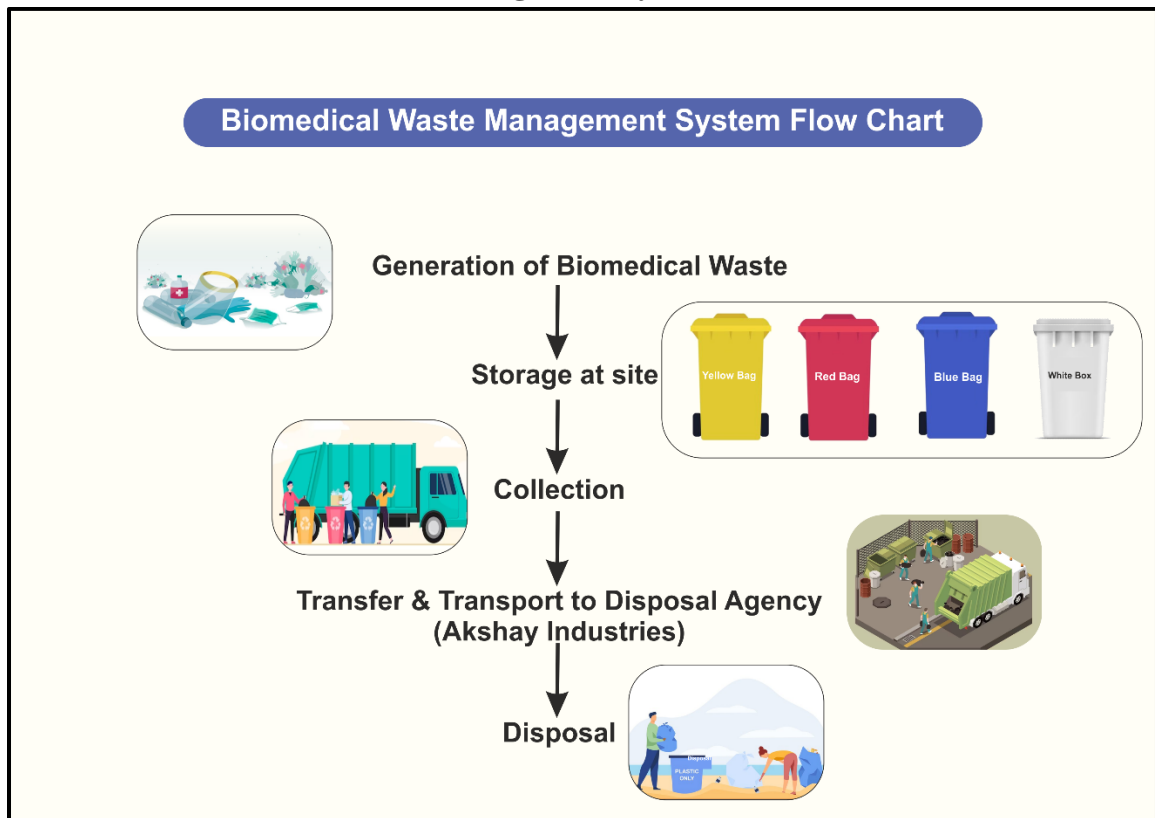

Liquid Waste Management System Flow Chart

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

- **Biomedical Waste Management:** Biomedical waste is generated in the form of animal experimentation, bioassays, micro biological cultures, fluid, blood, cotton, dressings, syringes, needles, lancets at the institute. The waste is disposed by following the guidelines given by Committee for Control and Supervision of Experiments on Animals (CCSEA).

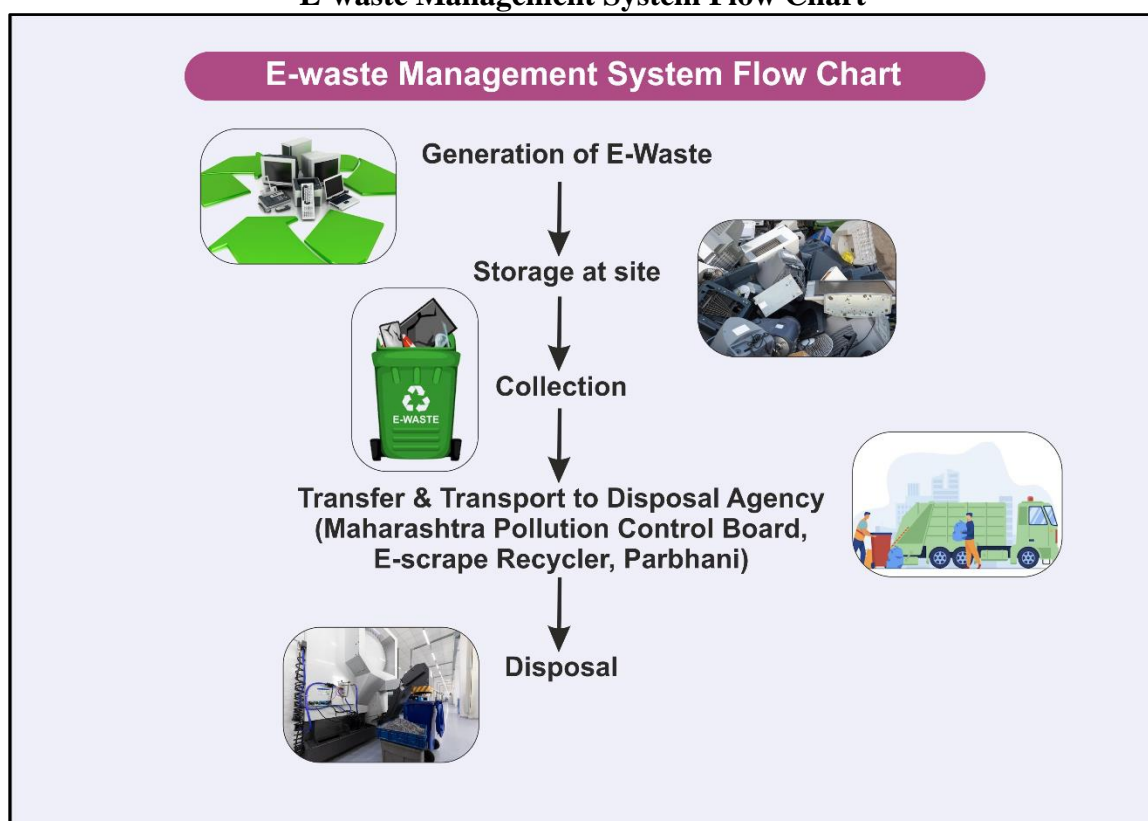

Biomedical Waste Management System Flow Chart

[Signature]
Principal
 Channabasweshwar Pharmacy
 College (Degree), Latur

- **E-Waste Management:** E-waste generated in the form of CD's, pen drives, monitor, hard disc, printers etc. Electronic waste components such as computer system components are repaired for minor defects and if not repaired, these are handed to E-waste collecting vehicle. College has MoU with Maharashtra Pollution Control Board (MPCB) - authorized e-waste collection agency (E-Scape Recycler), Purna, Parbhani.

E-waste Management System Flow Chart

- **Hazardous chemicals waste management:** Corrosive chemicals and oxidizing agents are used in restricted and small quantities during practical work. Students are instructed to wear laboratory aprons, gloves, chemical splash goggles while handling such chemicals in the laboratory. Almost there is no hazardous and radioactive waste generated in our college.

These measures are communicated to the students, faculty and staff via internal communication channels.

MEMORANDUM OF UNDERSTANDING

BY AND BETWEEN

Scape E Recycler Pvt. Ltd.

AND

Channabasweshwar Pharmacy College (Degree), Latur

This Memorandum of Understanding is made and entered into on *this* 14 day of October 2022 between the Scape E Recycler Pvt. Ltd. located at Purna, Dist. Parbhani, Maharashtra 431511 (now onwards referred to as the "Scape") and the institute, with address (now onwards referred to as the "institute") (collectively referred as "Parties").

RECITALS

WHEREAS Scape is recognized as the leading E-waste Management company in the Marathwada region of Maharashtra and registered under the Ministry of Corporate Affairs with CIN: U37100MH2021PTC365770 for its strength in creating values in the consumer's data security, safety, and environment-friendly disposal of E-waste;

WHEREAS the details of institute and registration.

Channabasweshwar Pharmacy College (Degree),

 Approved by Govt. of Maharashtra, PCI New Delhi & Affiliated to S. R. T. M. University, Nanded.

"Panchakshari Shivacharya Trust" is a charitable trust registered under Bombay Act 1950. It undertakes educational and social activities. The trust has started Channabasweshwar Pharmacy polytechnic in 1980. After realizing the prospects and potential of the course in the emerging scenario of global pharmaceutical industry and education, again the trust has started Channabasweshwar Pharmacy College (Degree), Latur with Degree course B. Pharm in 2010 and post graduate course M. Pharm from 2012 in two specializations (Pharmaceutics & Pharmaceutical Quality Assurance), Pharm D course in 2020 and M. Pharm in Pharmaceutical Chemistry & Pharmacology in 2021. The College has University Recognized Ph.D research centre since 2019. As a premier teaching institute, we endeavor to harness inherent potential through meeting the growing needs of higher technical education with consistency of excellence in as a humble instrument for greater goods.

WHEREAS both Parties wish to enable cooperation and exchange in all academic & industrial research areas of mutual interest.

WHEREAS both Parties wish to enable cooperation and exchange in English language only.

ARTICLE 1

PURPOSE AND SCOPE OF THE MOU

The purpose of this MOU includes, but is not limited to the following,

1. The organization of joint academic and industrial scientific activities, such as courses, conferences, seminars, symposia, or lectures about E-waste and Plastic waste;
2. The mobility of research and teaching personnel,
3. Exploring future possibilities for student mobility including internship/training in the industry;
4. The development of collaborative research projects,
5. Possible access to publications and other materials of common interest.

ARTICLE 2

PROPOSED ACTIVITIES PURSUANT TO THE MOU

- 2.1 “Industrial/ Institutional Appointees” To implement the purpose envisaged under this MOU, representatives of the Parties may meet periodically to conclude definitive projects (“Projects’), including their financing for each project and possible collaboration with other Parties, consultancy from professors and industry within the purview of Institute and Industry. Both Parties will designate a representative to initiate and coordinate the projects. The coordinators from each Party may meet to review the progress of the implementation of the agreed project, define new areas of collaboration as well as discuss matters related to this MOU.

ARTICLE 3

INTELLECTUAL PROPERTY

- 3.1 Each Party will retain all proprietary rights in and to its proprietary information and any information or other material provided by it in relation to this MOU and it shall remain the exclusive property of such Party (the “IP”).
- 3.2 Nothing in this MOU shall be construed as granting either Party any rights in or license to use the IP without the other Party’s prior written consent, which may or may not be given at that Party’s sole and absolute discretion.

ARTICLE 4

CONFIDENTIALITY

- 4.2 Confidential information means any and all information in whatever form provided by the disclosing Party and relating to the Activities, provided such information is either (a) marked as confidential at the time of disclosure; or (b) if not in a form that can be readily marked (e.g., an oral, visual or electronic form), is identified by the disclosing Party as confidential at the time of disclosure, or (c) if, given the circumstances of the disclosure, the receiving Party reasonably ought to know that it should be treated as confidential. No disclosure under this MOU or Project Agreement shall be considered an offer to sell or a public disclosure.
- 4.2 The Parties acknowledge and agree that they will maintain the secrecy and confidentiality of confidential information received from the disclosing party under this MOU or Project Agreements. Receiving Party will not disclose the Confidential Information of the disclosing Party to any third party without prior written authorization from the disclosing Party, except that Receiving Party may share the Confidential Information on a need-to-know basis with (a) Receiving party's Affiliates, or (b) to the extent they are subject to a non-disclosure obligation, receiving Party's contractors, agents, students, employees, or representative performing the Activities for receiving Party. Receiving Party will only use the disclosing Party's Confidential Information for the Activities stated in this MOU or Project Agreements. Receiving Party will not remove any confidentiality, proprietary, or other similar markings from Confidential Information. Receiving Party also agrees to adopt measures to protect the secrecy and confidentiality of Confidential Information that are reasonable under the circumstances and that protect the disclosing Party's Confidential Information with at least the some degree of care, but in any case no less than a reasonable degree of care, as receiving Party uses to protect its own information of a like confidential nature. During the work under this MOU, the Parties will not use or disclose to each other any confidential information owned by a third party, unless the disclosing Party has written authorization to do so.

ARTICLE 5

TERM OF MOU

This MOU shall commence on the date of this MOU above and shall remain in effect for a period of two (02) years. either party may terminate this MoU by giving thirty (30) days prior notice to the other Party. This MOU can be extended by mutual written agreement of both Parties. The termination of this MOU shall not affect the implementation of the projects established under it prior to such termination

7.1.2.3 Water conservation

a. Water conservation Measures:

One of the sources of water supply for the college is municipal corporation, Latur and available bore wells in the campus. The institute is aware of the need to conserve the water and its efficient use to reduce the risk of water shortages.

College educates the students, faculty members and staff of the institute for proper utilization of available water and methods for conservation. The guidelines and necessary procedures are given for effective and optimum utilization of water in the institute through display.

Improvement in water conservation measures:

1. All are informed to use water cautiously.
2. Suitable measures may be taken to prevent wastage of water in conduct of experiments and other day to day activities
3. Conservation of water-by-water recycling, rain water harvesting systems etc. should be implemented.
4. The water used during the experimentation such as in condensers for synthesis should be recycled as this water can be reused for condensation purposes

Minimization of waste management:

These guidelines would help to proper utilization of available water resources, its conservation and recycling.

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

b. Facilities for water conservation:

i. Rain water harvesting:

The rain water that runs off from the college rooftops is harvested through recharging pit. At college building, the remaining roof runoff water is allowed to infiltrate in the ground for recharge. This mechanism ensures the percolation of the rain to soil.

Rain water harvesting and its utilization in the campus and college building:

- The main building total roof top rain water is collected through the channels and pipe line in the pits.
- After entry of the water to rain water harvesting system, it has been filtered in the chambers which consist of three layers as rock filters, coarse sand and fine sand with coal powder.
- Overflow channel is provided through which the excess water passes to the percolation tank.
- The collected water is used for gardening purposes
- Pipelines, taps at the college campus is repaired periodically to avoid wastage of water.
- Waste water from distillation assembly is reused for washing glassware's during the practicals and experiments.
- Students and employees at the college campus are encouraged to save water.

ii. Ground water recharge:

The water running from the roof top of the college building is recharged into rain water harvesting pits for the gardening in campus.

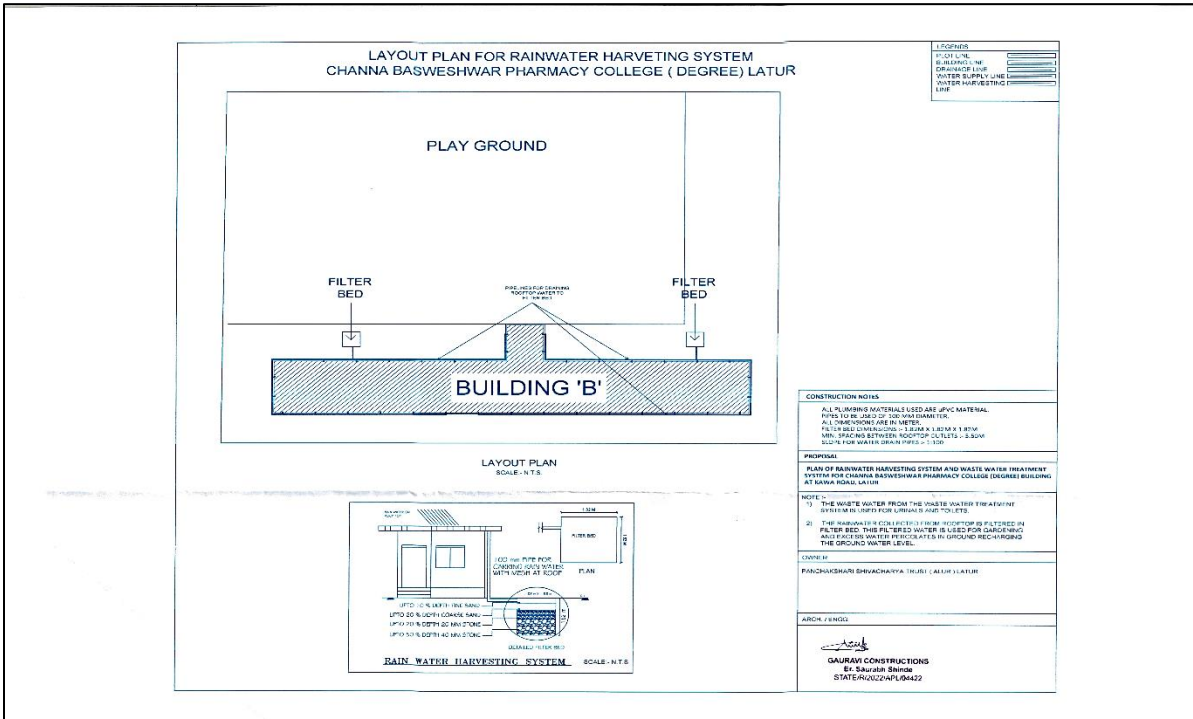

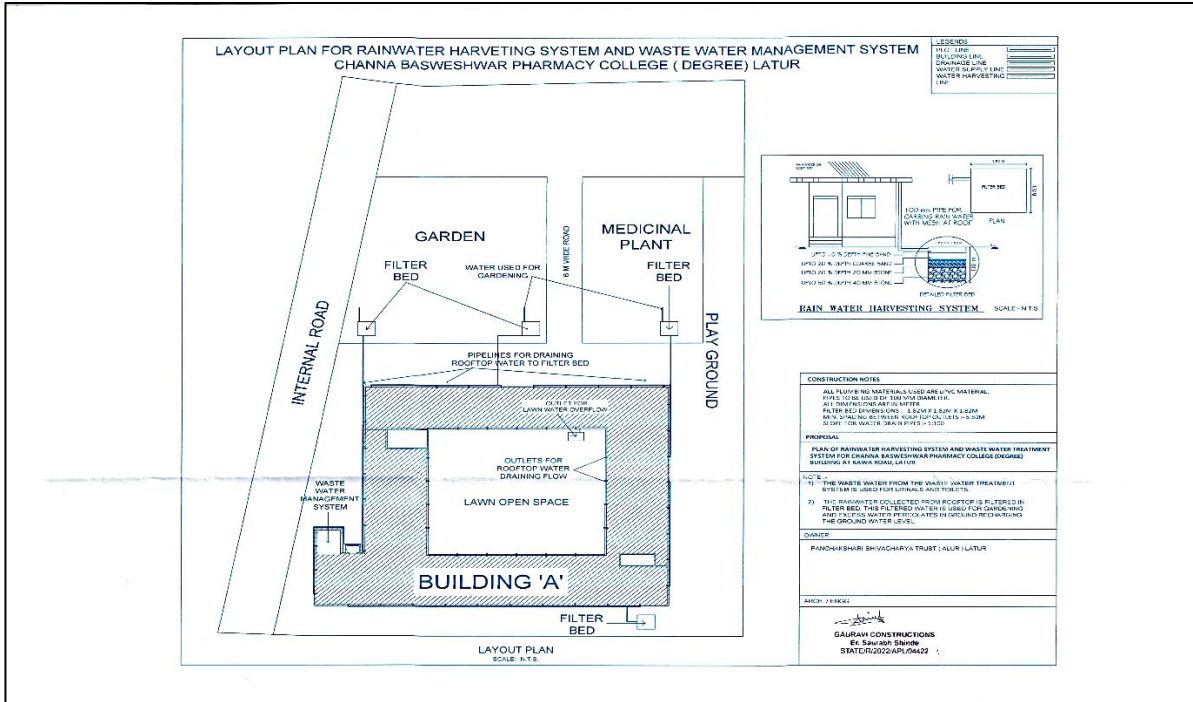

iii. Construction of tank and bunds:

The water tank having capacity 10,000 liter is constructed in the campus for the proper storage of water in the college building. Underground water storage facility is available at college system. The stored water is used for daily cleaning, for laboratories etc.

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

Rain Water Harvesting System Layout:

(Signature)
Principal
Channabasweshwar Pharmacy
College (Degree), Latur

iv. Maintenance of water bodies and distribution system in the campus:

The underground storage tanks are constructed in the college where the water is stored. The ground water is pumped into sintex storage tanks located at roof of the in the college building. The supply of water to all over the campus is done through well laid pipe network. The water is then supplied to every department and laboratories through in-built pipelines. Entire distribution system is well supervised periodically to ensure that there are no leakages and wastages of precious water through joints. All the stakeholders of the college are well educated to use the water efficiently.

v. Preventing the water loss:

Leakages in the water supplies are the first and major source of water loss. We perform timely leak detection and repair of the same.

7.1.2.4 Green campus initiatives

a. Environmental and Green campus measures:

Every individual of Channabasweshwar Pharmacy College (Degree) may he/she be a student, faculty and supporting staff are working to foster a culture of clean, green and a minimization of pollution and try to provide natural environment for an effective learning experience. In this context college has adopted the various green campus initiatives intermittently like:

- Tree Plantation Drive
- Cleanliness Drive
- Say no to single use plastic awareness
- Way to paperless office
- Landscaping and gardens
- Green and Energy Audit
- Bicycle day Celebration
- Greener approach software such as Vmedulife, Tally ERP, Soul, Delnet etc.
- Appreciate usage of E-Vehicle by staff and students
- ISO Certification 14001:2015

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

b. Facilities for Green Initiatives:

i. Medicinal garden at College Campus:

The College has the privilege of maintaining herbal garden within the campus to increase the awareness of students and society about medicinal plants around 50 species of important medicinal and aromatic plant. The herbal garden generally consists of all the herbs which have medicinal and aromatic properties. A medicinal garden is specially set up within college campus to afford better understanding about plants of medicinal use. The herbal garden generally consists of all the herbs which have medicinal and aromatic properties. Plant profile of each plant is properly named, classified with specific name along with. In addition to that some medicinal plants have naturally grown in the college.

ii. Green Landscaping at College campus:

The Institute has a green campus as well as trees are planted all over the campus area. The variety of trees, herbs, shrubs is planted in and around the campus. Most of the corridors of the college are also lined up with potted plants. For students for study and discussion green area is prepared in the campus. Large walking track is available at college campus for students.

iii. Pedestrian friendly pathway:

Campus has sufficient space for parking vehicles of staff and students. Roads inside the campus are well maintained. Pedestrians can walk safely through the campus through walk friendly pathways. Security people are assigned duties on every turn and crossing to the campus.

c. Appreciation Letter to Battery powered Vehicle Users:

Ref.No CBPCL/e-bike day/2022-23/7698A

Date:12/05/2023

To,

Miss. Swami J.T.

Subject: Appreciation letter for using battery powered electric vehicle

Dear

It gives us immense pleasure and pride to issue this appreciation letter to you for an e-bike battery powered vehicle for your daily up and down to college. Pollution has become a burning issue today. You are contributing towards environmental sustainability by using the e-bike which is a good step towards our policy of environmental protection.

It's a matter of pride for all of us.

You will be an inspiration to all other students and staff.

We thank you and wish you all the best.

7.1.2.5 Disable-friendly, barrier free Environment:

a. Disable-friendly, barrier free Environment Measures:

The Government of India signed Rights of Persons with Disability Act 2016 that recognizes that persons with disability are entitled to equal opportunities & rights to participate in the political, social, and economic and self-development activities in all walks of life.

The college is committed to provide additional support to make Divyangjans equitable and independent. College will take necessary measures to make infrastructure and programme accessible to all without distinction, providing special measures for those who fall under the category Divyangjans.

College website is disabling friendly for easy and comfortable access. While admitting students to the course, there is a reservation for PWD candidates as per DTE norms.

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

b. Facilities for Disabled Friendly, barrier free environment:

i. Built environment with ramps/lifts for easy access to classrooms:

The Ramp is built at the college to provide convenience and prevent tripping accidents. Ramp facility is provided at the entrance of the ground floor toilet, boy's common room. The college authorities are sensitive towards the differently abled students. Therefore, for easy movement of persons with disability, lift facility is available at college building. This helps to move wheelchairs easily.

ii. Disabled friendly washrooms:

Separate disabled friendly washroom is available at the college with scheduled maintenance, cleanliness and hygiene.

NVDA software: Non-visual desktop access is a free "screen reader" which facilitates blind and vision impaired person to use computers. It reads the text on the screen in a form of computerized voice. You can control what is read to you by moving the cursor to the appropriate area of text with a mouse or the arrows on your keyboard. NVDA can also convert the text into braille if the computer user owns a device called a "braille display". For the blind and Vision Impaired candidates NVDA software is installed in the computers and laptops of college library and computer lab.

Disable friendly website

College has disable friendly website, there are various options provided like increase text size, decrease text size, grayscale, high contrast, negative contrast, light background, readable font etc.

Physical facility:

There is an availability of wheelchair for the disabled person and one class four worker is also available for the movement of disabled person from one place to another as per their requirement.

- Wheelchair for Divyangjan
- There is an availability of Rest room for Divyangjan where they can take rest.
- Washroom for physically challenged students is available in the boys and girl's common room.

c. Provision for Enquiry and Information

If any Divyangjan student may have difficulty in taking the examination themselves and need scribes to assist. The college allows the students to take the help of scribes in the examination after due permission from examination section.

Principal
Channabasweshwar Pharmacy
College (Degree), Latur

The relevant documents related to permission for scribes for the (Divyangjan) are given below.

MINISTRY OF LAW AND JUSTICE
(Legislative Department)
New Delhi, the 28th December, 2016/Pausha 17, 1938 (Saka)

The following Act of Parliament received the assent of the President on the 27th December, 2016, and is hereby published for general information:—

THE RIGHTS OF PERSONS WITH DISABILITIES ACT, 2016
(No. 49 of 2016)
[27th December, 2016]

An Act to give effect to the United Nations Convention on the Rights of Persons with Disabilities and for matters connected therewith or incidental thereto.

WHEREAS the United Nations General Assembly adopted its Convention on the Rights of Persons with Disabilities on the 13th day of December, 2006;

AND WHEREAS the aforesaid Convention lays down the following principles for empowerment of persons with disabilities,—

(a) respect for inherent dignity, individual autonomy including the freedom to make one's own choices, and independence of persons;

(b) non-discrimination;

(c) full and effective participation and inclusion in society;

(d) respect for difference and acceptance of persons with disabilities as part of human diversity and humanity;

IV. The facility of Scribe/Reader/Lab Assistant should be allowed to any person with benchmark disability as defined under section 2(r) of the RPwD Act, 2016 and has limitation in writing including that of speed if so desired by him/her.

In case of persons with benchmark disabilities in the category of blindness, locomotor disability (both arm affected-BA) and cerebral palsy, the facility of scribe/reader/lab assistant shall be given, if so desired by the person.

In case of other category of persons with benchmark disabilities, the provision of scribe/reader/lab assistant can be allowed on production of a certificate to the effect that the person concerned has physical limitation to write, and scribe is essential to write examination on his behalf, from the Chief Medical Officer/Civil Surgeon/ Medical Superintendent of a Government health care institution as per proforma at **APPENDIX-I**.

V. The candidate should have the discretion of opting for his own scribe/reader/lab assistant or request the Examination Body for the same. The examining body may also identify the scribe/ reader/lab assistant to make panels at the District/Division/ State level as per the requirements of the examination. In such instances the candidates should be allowed to meet the scribe two days before the examination so that the candidates get a chance to check and verify whether the scribe is suitable or not.

VI. In case the examining body provides the scribe/reader/lab assistant, it shall be ensured that qualification of the scribe should not be more than the minimum qualification criteria of the examination. However, the qualification of the scribe/reader should always be matriculate or above.

In case the candidate is allowed to bring his own scribe, the qualification of the scribe should be one step below the qualification of the candidate taking examination. The persons with benchmark disabilities opting for own scribe/reader should submit details of the own scribe as per proforma at **APPENDIX-II**.

VII. There should also be flexibility in accommodating any change in scribe/reader/lab assistant in case of emergency. The candidates should also be allowed to take more than one scribe/reader for writing different papers especially for languages. However, there can be only one scribe per subject.

VIII. Persons with benchmark disabilities should be given, as far as possible, the option of choosing the mode for taking the examinations i.e. in Braille or in the computer or in large print or even by recording the answers as the examining bodies.
