ERP DOCUMENT FOR E-GOVERNANCE

1. Introduction:

The e- Governance enables the stakeholders of Channabasweshwar Pharmacy College (Degree), to make availability of information across various activities of the institute in an efficient manner from academics to administration. It includes the operations of various functions and processes within the college, such as student admission and support, accounts, finance management, placement, purchases, library, online classes and examination, thereby facilitating all stakeholders in the college, including administrative staff, teaching and non-teaching staff and students. It allows various departments to access & update changes in particular like attendance, phone numbers, address based on need and present the data base related to students.

Institute has procured Cloud based Vmedulife LMS software. The software is used for administration, student admission and support, leave management, employee registration and faculty profile.

TALLY Prime Software is used in office for finance & account. Soul software and Del-net enhances the library information system. Electronic Governance Policy is implemented in college and through e-Governance policy college enhances and improve the various services.

This document covers the following heads,

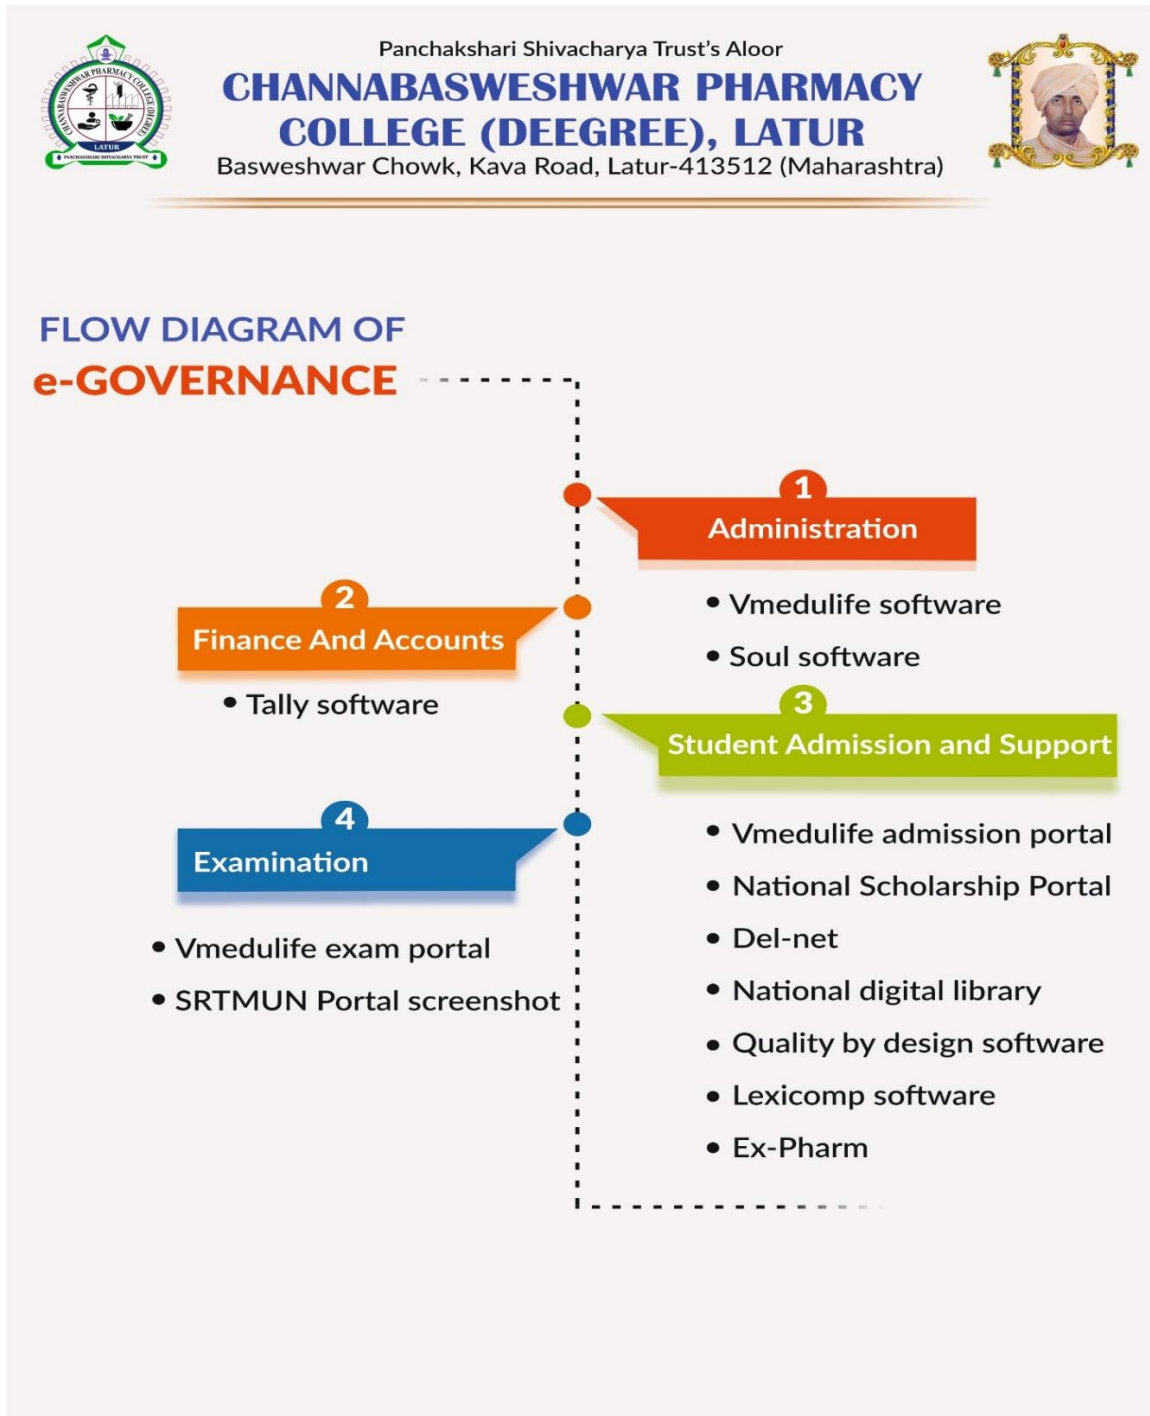

1. Administration
2. Finance and Accounts
3. Student Admission and Support
4. Examination

The various educational software's like Vmedulife, QBD, Lexicomp and Ex-Pharm are available in college to effectively & efficiently implementation of e-governance throughout the all processes. IT provides comprehensive knowledge to students and faculties about academic and research in various areas of interest.

7. Conclusion:

The integration among the various activities of all the sections such as administration, finance & accounts, student admission and support, examinations and academics are made possible with effective & efficient e-governance measures. This e-governance implementation encourage stakeholders towards less paper work in documentation. It concludes that the E-governance is the best solution to the problem of slow delivery of services by increasing its efficacy. It also provides the time-bound delivery of services, transparency in the work, cost effective alternative for both students & faculties.
